

Data Security for All Data Types: Data Security Posture Management (DSPM+) for All Data

Unified Protection for All Data Types

Comprehensive Data Security

Sotero offers an all-encompassing solution for data protection, safeguarding both structured and unstructured data irrespective of its location. Leveraging its unique DSPM (Data Security Posture Management) and DDR (Data Detection and Response) capabilities, it can actively neutralize malicious activities, providing robust, multi-layered protection against threats beyond ransomware.

Real-Time Monitoring and Governance

With advanced machine learning technologies, Sotero monitors all access requests and changes to your data in real time. This constant vigilance aids in prompt threat detection and response, ensuring your data's safety at all times.

Cost Efficiency

Sotero brings DSPM and DDR onto a single platform, eliminating the need for multiple solutions and thereby reducing management time and resources. This unified approach not only simplifies data security management but also provides significant cost savings for your organization.

Business Continuity

Sotero uses advanced ML algorithms to analyze access to records, determine standard utilization patterns for individuals, and detect variations in access times, locations, and data elements. This intelligent analysis helps identify and mitigate potential threats promptly, ensuring compliance with data security standards.

Trust and Compliance

Sotero enhances trust among your stakeholders, including customers, partners, and employees, by bolstering your organization's comprehensive data security reputation. It also helps meet regulatory requirements for data security, thereby preventing penalties and maintaining a positive standing with regulatory bodies.

Scalability

With its robust, scalable architecture, Sotero grows alongside your organization. It allows for the expansion of your digital operations without the fear of data breaches, providing a secure foundation for your organization's growth.

With its wide array of benefits and comprehensive protection for all data types, Sotero stands as a unified solution for your organization's data security needs.

About Sotero

Sotero is a cutting-edge data security company that is revolutionizing the way organizations protect their most valuable assets - their data. Sotero delivers value beyond DSPM, it puts organizations in control beyond posture management by automatically stopping any threats or malicious activity in its tracks. With Sotero, you can unlock innovation and seize a competitive edge without compromising regulatory compliance. To learn more, visit www.soteroseft.com.
